DETAILED ACTION

Allowable Subject Matter

1. The following is a statement of reasons for the indication of allowance subject matter: the prior art of record does not teach the combination of an insulating substrate with a first and second conductive land areas, wherein the lands are electrically coupled to each other. A semiconductor post formed on the first conductive land and a semiconductor pellet mounted on the second conductive land. The semiconductor pellet has electrodes on both sides, wherein the electrode on one side of the pellet is coupled to the second conductive land and the electrode on the other side of the pellet has an external electrode electrically coupled thereto. An encapsulation resin portion that encapsulates the main area of the substrate including the conductive post and pellet, wherein top portions of the conductive post and the external electrode electrically coupled to the pellet being exposed from the encapsulation resin portion.
